

Increase the speed and reliability of your Internet connection.

OneSolutions™

OneSolutions Dedicated Internet Access delivers reliable, high-speed dedicated Internet connectivity for your business. Its guaranteed bandwidth lets you confidently run applications that require high-speed data transmission, including large file transfers, Web hosting, and more. Plus, it comes with a Service Level Agreement (SLA) that guarantees the speed and performance of your mission-critical Internet applications. It's supported by a robust backbone, dynamic architecture, and 24/7 monitoring by our Network Operations Center to ensure reliability. And simple, predictable monthly pricing helps you plan your telecom budget, while making your life a little easier.

Standard Features

- :: High-speed Internet connectivity from 1.5 Mbps to 45 Mbps; same upload and download speed
- :: Guaranteed bandwidth
- :: Industry leading Service Level Agreement ensures the performance of critical business applications
- :: Includes Cisco®-powered IAD or ISR
- :: Managed service—no upfront equipment costs
- :: Includes up to 16 IP addresses
- :: 100 Email accounts with 100 MB storage per box, including anti-virus and anti-spam filtering
- :: Domain name service, including registration or transfer
- :: Web Hosting with 1.6 GB of storage, 60 GB for monthly transfer, and our Webstats tool for utilization reporting
- :: One Connect portal for email self-administration

Optional Features

- :: Additional IP Addresses
- :: Additional Mailboxes
- :: BGP Services

Our philosophy is simple.

We think buying the **right telecommunications solution** and putting it to work for your business should be easy—and that you should get the **most value** possible for your investment. That's why we've developed a suite of products that **delivers that value**: everything from basic voice service to managed IP solutions that scale from T1 to DS3. They're the kind of advanced solutions you'd expect from a **premier telecommunications provider**.
