

## Welcome to the Summer Enrichment Academy!

The Renaissance School is happy to present our ninth year of summer enrichment programs for children who have completed Kindergarten through Grade 6. Students will participate in a week-long course of interest with staff from The Heartworks and Renaissance Schools and visiting teachers who specialize in the field of study. Students will enhance their talents and learn new skills in a stimulating and nurturing environment. The Summer Enrichment Academy is located at The Renaissance School on Shelburne Farms. Many lessons will take place in the out of doors to capture the beauty of the summer.

June 25-29  
The Farm Through a Lens  
Willy Wonka

July 9-13  
O' Pioneer  
The Wonders of Water

July 16-20  
Nature Detectives

July 23-27  
Beautiful Biomes  
The Nature of Art

**Hours:**

The Summer Enrichment Academy meets from 8:30am to 3:30pm Monday through Friday.

Early Care and Late Care are available from 8-8:30 or from 3:30-4:00

**Tuition:** \$280.00 per week.

Early and Late Care: \$3 for each or \$5 for both per day.

One week's tuition is due with your application. If there is a remaining balance, it will be due by June 1, 2012.

## Summer Enrichment Academy

June 25—July 27, 2012

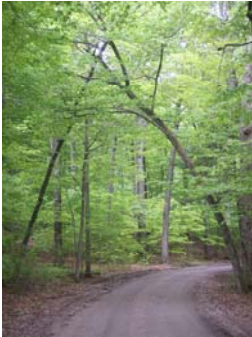

At The Renaissance School  
on Shelburne Farms

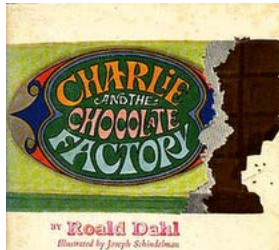

## June 25—29

### **The Farm Through a Lens:**

Discover Shelburne Farms through the lens of your digital camera! Through landscape pictures, close-up images and animal portraits, you will study the art of photography. Learn how to tell a story with a photograph and create your own album to take home. Requirement: a small digital camera.

**Willy Wonka:** Come explore the exciting story of Charlie Bucket as he visits Willy Wonka's amazing chocolate factory. While we explore the magical world created by Roald Dahl, we will have the opportunity to make our own candy confections. What a sweet week this will be!

## July 9—13

**O' Pioneer:** Learn about and live the life of a pioneer on Shelburne Farms. Discover life without electricity, learn how to build shelters and cook outdoors, help with farm animals, make travel journals and tend the gardens just like the pioneers did so many years ago.

**The Wonders of Water:** Water is perhaps the most amazing substance on Earth, essential for life and the only substance that can be found naturally as a solid, a liquid, and a gas on our planet. Explore the unique properties of water, how water makes life possible, the movement of water and how it shapes the land through hands-on indoor and outdoor experiments and explorations around the farm.

## July 16—20

**Nature Detectives:** Dig for treasures, explore Pirate's Cove, investigate fossils, create scavenger hunts and learn to follow clues on a treasure map. Children will learn the art of solving mysteries using Shelburne Farms as their backdrop.

## July 23—27

**The Nature of Art:** Are you ready to see the environment in a whole new way? Inspired by British nature artist, Andy Goldsworthy, campers will explore natural art materials all around us. Your gift as an artist will be your sculptures, buildings and designs that celebrate beauty and the passage of time. Take home a sketchbook with photographs and drawings of your art.

**Beautiful Biomes:** Each day, the children will learn about a different biome and the animals that live there. From the rainforest to the desert, the ocean to the prairie, let's find out what makes these biomes special and how each one impacts the earth.
