

Sports Car Driving Association, LLC Tech Inspection

Dear SCDA Participant,

Welcome to Monticello Motor Club! Please take a few minutes to make sure that your vehicle is prepared for a day of track driving. All loose articles must be removed from the automobile. This on-site tech inspection is in the interest of participant safety. Please bring your car to pit lane after registration for the inspection. We will be checking the following specific items:

_____ Snell SA - 2000 or newer helmet. Either open or closed face.

_____ Brake Lights: Fully Operational

_____ Trunk and Interior of Automobile: Completely Empty. Spare tire removed or securely mounted. No loose items in car. (spare change, radar detectors, cell phones, etc.)

_____ Wheel Play: No excessive wheel bearing play in any of the 4 wheels. Tires in track ready condition, with a minimum of 3/32" tread depth.

_____ Tire Pressures set to appropriate settings.

_____ Lug Nuts Torqued to appropriate settings.

_____ Engine Compartment: Battery is securely fastened. Belts and hoses are in good condition. If applicable: Throttle cable has no free play and throttle return spring is in proper working order.

_____ Fluids : Engine Oil, Engine Coolant, Power Steering Fluid checked and set to appropriate levels.

_____ Brake Fluid: Date of last fluid change _____. Brake fluid should be gold in color. Brake pads inspected. No excessive brake pedal travel is detected.

_____ Seat Belts: Seat belts must be in fully operational condition, and both driver and passenger must have the same restraint systems.

I, _____, agree that my vehicle is in good mechanical repair, and is up to the rigors of on-track driving.

Signature _____ Date _____/_____/_____
